## COOKIES POLICY

# 1. Website Cookies Policy

---

This website uses cookies; these are small text files that are placed on your machine to help improve your browsing experience. We do not use cookies to collect personal information about you. If you wish to block or restrict cookies set by this or any other website you can do so through your web browser's settings.

The most effective way to do this is to disable cookies in your browser. We suggest consulting the "Help" function of your browser or visit [www.aboutcookies.org](http://www.aboutcookies.org) which offers guidance for all modern browsers.

Please note that restricting cookies may impact on the functionality of this website.

## Cookies We Set

Cookie Name	Purpose
<b>PHPSESSID</b>	Each visitor to our website is assigned a unique visitor ID which lets us anonymously identify a computer for the duration of their visit to our website. This allows us to provide you with additional benefits such as vouchers for signing up to our mailing list.  This cookie will be destroyed every time you close your browser.

## Cookies set by 3rd parties

Below is a list of the cookies set by other websites for the purposes of providing you with an enhanced experience by utilising their services.

Service/Feature	Purpose
<b>Google Analytics</b>	We use a web analytics service called Google Analytics to help us identify how our customers use our website, what they like and to see where improvements can be made.  Google stores the information collected by the cookie on servers in the United States. Google may also transfer this information to third parties if they are required to do so by law or if the third party processes information on Google's behalf. The information collected is aggregated and anonymised. Google does not associate your IP address with any other data held by Google.  For more information on how Google uses cookies, please refer to their <a href="#">privacy policy</a> .
<b>Google API</b>	Some of our pages use "captcha" technology which may set cookies on your computer. Captchas involve showing slightly jumbled or obscured words or letters and asking the user to type the words. Computers have difficulty reading the images and so these tests help us reduce spam. Some of our pages may also include graphs or charts which are generated on-the-fly using real time data. The systems we use to generate these may also store cookies on your computer.  For more information on how Google uses cookies, please refer to their <a href="#">privacy policy</a> .
<b>Google Maps</b>	Some of our pages include interactive maps provided by Google. Google may set cookies to store information and preferences about maps or other associated Google services on pages where we embed Google maps.  For more information on how Google uses cookies, please refer to their <a href="#">privacy policy</a> .
<b>YouTube</b>	Some of our pages have enabled, embedded YouTube videos. Youtube may set a number of cookies on your computer for these components.  For more information on how YouTube uses cookies, please refer to Google's <a href="#">privacy policy</a> .

## Contact us for more information

If you have any questions about how our website uses cookies, please email [marketing@hawthornleisure.com](mailto:marketing@hawthornleisure.com) and one of our team will get back to you.
